EXPERIENCE

INTERN SOFTWARE ENGINEER | WALLFRUIT TECHNOLOGIES | DEC 2016 - MAR 2017

I worked on the project as full stack developer using MEAN Stack and libraries such as jQuery, tesseract.js and leaflet.js.

FEATURED PROJECTS (GITHUB)

INSTACODE ONLINE JUDGE

Online platform and judge for holding algorithmic contests (just like hackerrank, codechef etc.) built using PHP, Javascript, Bootstrap & CSS. This website has been used to hold various college contests as well as serve as the official platform for lab practical use in my college.

IONIC MESSENGER

A chat app made for android and iOS for demonstrating obscure features such as going private with another user, giving a specific time to a message etc.

CODE SCRAPPER

A desktop app for Linux, Windows and Mac to download code from competitive programming websites.

MEMORY SEQUENCES

A web app for blogging with everything written from scratch. Made this to teach myself Angular 4 + Typescript.

TIME MY SHOW

A web app written in Angular 5 + Typescript to keep track of your favourite television shows by notifying for new episodes.

INSTANOTES

A website that lets students from my college as well as from other Engineering colleges search for class notes. Written in PHP, Javascript, Bootstrap.

OTHER ENDEAVOURS

- Apart from 23 of my own projects (Github), I am 3 years experienced in algorithmic programming with primary language as C++.
- Campus ambassador for HackerRank.
- Qualified for ACM-ICPC 2017 INDIA regionals.
- Held various college contests on our own website.
- Solved 1500+ problems (all solutions present on GitHub)
